Satisfaction Guaranteed on All Products | 24-Hour Repair/Replace Policy

**The only tire and complete wheel assembly balancing product proven to improve fuel economy in independently run SAE and TMC type II tests.\***

**Counteract**

**\*The significant improvements in fuel economy recorded in the SAE J1321/TMC RP-1102 tests were achieved by precision balancing all of the tires with Counteract Balancing Beads. Perfectly balanced wheel ends reduce tire rolling resistance by minimizing sidewall flexing, tire squirm, and road-shock rebound.**
