**DUBLIN** – Intelligent power management company Eaton Corporation plc (NYSE:ETN) today announced that earnings per share were \$2.22 for the third quarter of 2023. Excluding charges of \$0.21 per share related to intangible amortization, \$0.03 per share related to acquisitions and divestitures, and \$0.01 per share related to a multi-year restructuring program, adjusted earnings per share of \$2.47 were a quarterly record and up 22% over the third quarter of 2022.

Sales in the quarter were \$5.9 billion, a quarterly record and up 11% from the third quarter of 2022. Organic sales were up 9%, and positive currency translation added 2%.

Segment margins were 23.6%, a quarterly record and a 240-basis point improvement over the third quarter of 2022.

Operating cash flow was a third quarter record \$1.1 billion, and free cash flow was \$913 million, up 18% and 10%, respectively, over the same period in 2022.

The company's backlog was up 18% over the third quarter of 2022, up 4% sequentially.

The company narrowed full year organic growth guidance to a range of 11% to 12%, up 50 basis points at the midpoint, and raised adjusted earnings per share guidance to between \$8.95 and \$9.05, up \$0.25 at the midpoint. The company is also raising full year operating cash flow guidance to \$3.3-\$3.7 billion, up \$100 million at the midpoint. For the fourth quarter of 2023, the company anticipates organic growth of 8-10% and adjusted earnings per share of between \$2.39 and \$2.49.

Craig Arnold, Eaton chairman and chief executive officer, said, "We're proud to deliver another quarter of record results with continued growth in our backlog. To meet that demand, we are investing more than \$1 billion of capital in manufacturing to support the growth driven by electrification, energy transition and digitalization. Given our strong performance and these capacity additions, we continue to look ahead with confidence in our ability to deliver on our growth and margin expansion outlook into 2024 and beyond."

## **Business Segment Results**

Sales for the Electrical Americas segment were a record \$2.6 billion, up 19% from the third quarter of 2022, driven entirely by organic sales growth. Operating profits were a record \$719 million, up 41% over the third quarter of 2022. Operating margins in the quarter were a record 27.7%, up 420 basis points over the third quarter of 2022.

The twelve-month rolling average of orders in the third quarter was down 3% organically from high levels in 2022, with continued growth in the data center, industrial facilities and institutional markets. Backlog at the end of September was up 19% organically over September 2022.

Sales for the Electrical Global segment were a third quarter record \$1.5 billion, up 1% from the third quarter of 2022. Organic sales were flat, with positive currency translation adding 2%, partially offset by the impact of a small divestiture. Operating profits were \$328 million, a

record and up 8% over the third quarter of 2022. Operating margins in the quarter were a record 21.8%, up 120 basis points over the third quarter of 2022.

The twelve-month rolling average of orders in the third quarter was up 1% organically, with strength in the data center and utility markets.

On a rolling twelve-month basis, the book-to-bill ratio for the Electrical businesses remained strong at over 1.1.

Aerospace segment sales were a record \$867 million, up 13% from the third quarter of 2022. Organic sales increased 10%, and positive currency translation added 3%. Operating profits were \$209 million, a record and up 13% from the third quarter of 2022. Operating margins in the quarter were 24.1%, up 10 basis points over the third quarter of 2022.

The twelve-month rolling average of orders in the third quarter was up 16% organically, with particular strength in the commercial OEM, commercial aftermarket and defense OEM markets. The backlog at the end of September was up 22% over September 2022. On a rolling twelve-month basis, the book-to-bill ratio for the Aerospace segment remained strong at 1.2.

The Vehicle segment posted sales of \$753 million, up 1% from the third quarter of 2022. Positive currency translation added 2%, partially offset by organic sales down 1%. Operating profits were \$131 million, up 5% over the third quarter of 2022. Operating margins in the quarter were 17.4%, up 60 basis points over the third quarter of 2022.

eMobility segment sales were a record \$163 million, up 19% over the third quarter of 2022. Organic sales were up 19% with flat currency translation. The segment broke even in the quarter, with a 150-basis point improvement over the third quarter of 2022, driven by higher volumes from ramping programs and improved net manufacturing productivity.

## EATON CORPORATION plc NOTES TO THE THIRD QUARTER 2023 EARNINGS RELEASE

Amounts are in millions of dollars unless indicated otherwise (per share data assume dilution). Columns and rows may not add and the sum of components may not equal total amounts reported due to rounding.

### Note 1. NON-GAAP FINANCIAL INFORMATION

This earnings release includes certain non-GAAP financial measures. These financial measures include adjusted earnings, adjusted earnings per ordinary share, and free cash flow, each of which differs from the most directly comparable measure calculated in accordance with generally accepted accounting principles (GAAP). A reconciliation of each of these financial measures to the most directly comparable GAAP measure is included in this earnings release. Management believes that these financial measures are useful to investors because they provide additional meaningful financial information that should be considered when assessing our business performance and trends, and they allow investors to more easily compare Eaton Corporation plc's (Eaton or the Company) financial performance period to period. Management uses this information in monitoring and evaluating the on-going performance of Eaton and each business segment.

The Company's fourth quarter and full year adjusted earnings guidance for 2023 is as follows:

Acquisition integration, divestiture charges and transaction costs in 2023 and 2022 are related to the acquisition of Royal Power Solutions and other acquisitions completed prior to 2022, including other charges and income to acquire and exit businesses. Costs in 2023 and 2022 also included certain indemnity claims associated with the sale of 50% interest in the commercial vehicle automated transmission business in 2017. Costs in 2022 also included charges of \$29 million presented in Other expense (income) - net on the Consolidated Statements of Income related to the decision in the second quarter of 2022 to exit the Company's business operations in Russia. These charges consisted primarily of write-downs of accounts receivable, inventory and other assets, and accruals for severance. These charges were included in Cost of products sold, Selling and administrative expense, Research and development expense, or Other expense (income) - net. In Business Segment Information, the charges were included in Other expense - net.

## **Note 4. RESTRUCTURING CHARGES**

In the second quarter of 2020, Eaton initiated a multi-year restructuring program to reduce its cost structure and gain efficiencies in its business segments and at corporate in order to initially respond to declining market conditions brought on by the COVID-19 pandemic. Since the inception of the program, the Company has incurred charges of \$371 million. These restructuring activities are expected to be completed in 2023 with total estimated charges of \$380 million cumulatively for the entire program and projected mature year savings of \$265 million when fully implemented. The remaining charges in 2023 are expected to relate primarily to plant closing and other costs.

A summary of restructuring program charges is as follows:
